| Saul was a religious Jew who believed in following the Ten Commandments but didn’t believe in Jesus.  
(draw 2 stone tablets where the ten commandments were written) |
| One day he was travelling to Damascus looking for followers of Jesus. He wanted to arrest them.  
(draw Saul on a horse) |
| As he got near to Damascus suddenly a very bright light shone in his eyes, blinding him.  
(draw a face with beams of light shining on it) |
| He was led to a place in Damascus where God had told a man called Ananias to lay hands on him to heal him. Then he could see again!  
(draw Saul’s two eyes, wide open) |
| Saul now believed, was baptised and wanted to share his new faith with others.  
(draw Saul being baptised in a river) |
| Some of Saul’s old friends were angry that he had become a follower of Jesus, so they made plans to kill him. Some believers helped him escape.  
(draw Saul in a basket being lowered down on ropes from the high city wall) |
Saul became a strong follower of Jesus. His name was then changed to Paul and he travelled to many different places telling others all about Jesus.

He also wrote many letters to new churches that he set up. Thirteen of them were included as books of the bible.

List the books he wrote by unscrambling the words below. Look at the index of a bible to help you.
